TYYNY® A BRAND WHICH EMERGE IN A GOOD CONTEXT'

CREATED IN 2018, TYYNY IS A BRAND PART OF THE GROUP CONTEXT LOCATED IN CHAMBON FEUGEROLLES IN LOIRE AND FOUNDED IN 2000.

TYYNY® enjoy of expertise and experience of CONTEXT in making foam products and technical fabrics.

TYYNY® suggests to professional people of sports, mountain and leisure a complete range of equipments and protection.

Whole TYYNY's products are designed and made in France in the production area CONTEXT, specialized in welding and industrial stitching.

OUR VALUES

TYYNY® THE STRENGH OF THE NATURE

CREATYVYTY

— Show the path instead of following tracks. With all our strengths.

REALYYTY

— Only suggest you best product to best price. No more. No less.

REACTYVYTY

— Offer you the best service in record time. Sky is the limit.

HUMYLYTY

— Put your satisfaction at the heart of our concerns. With all goodwill.

PROTECTION AND LAYOUT OF SKIING AREAS SLIDE SLOWLY.

Building its experience since 15 years in mountain domain, TYYNY has designed a range of solutions dedicated to winter sports resorts.

Our customers feedbacks accumulated during all of these years has allowed us to suggest products which insure the highest level of security and comfort to your clients.

Our desire ? Gather all standards of the profession to the best value for money and on time.

Our satisfaction ? Bring, according to your needs, the best adapted solutions and together, guarantee the success of your projects.

RESCUE VEHICLES

ALPY PRO

Ref.	Size
ALPYPRO	2000 x 600mm

Option : Lifting backrest / Reference: Evolution

CHARACTERISTICS :

- **Bi-material HDPE frame**
- Aluminium folding arms
- Weight : 22 kg

ALPY 200 - 300

Ref.	Size
ALPY200	2000 x 600mm
ALPY300	2000 x 600mm

Option: Lifting backrest / Reference: Evolution

CHARACTERISTICS :

- **Polyester shell with Kevlar reinforcement**
- Aluminium folding arms
- With ajustable extension up to 30 cm for ALPY 300 - without extension ALPY 200
- Weight : 28 kg.

BANQUETTE RANDO

Ref.	Size
BARQUETTE RANDO	2000 x 600 mm

CHARACTERISTICS :

- **Polyester and Kevlar shell**
- Usable size: 2000 x 600 mm
- Weight: 38 kg
- 2 folding arms with locking pins operated by an espagnolette
- Kevlar reinforced bottom

[NEW]

OUR ECO RESPONSIBLE COMMITMENT.

OUR APPROACH

Since a fex years already, we set up a eco responsible approach: whether in the procurement with the selection of french and europeen suppliers for a better traceability of the origin of the raw materials; or for industrial wastes by the valorisation of the tailings of foam, compacted and integrated in a second life path.

Nowadays, we are expecting to go further in order to limit ecological footprint of our products.
For that, we worked in the set up of an circular economy helping by new processes of valorisation to meet your expectations and emerging needs of your sector of activities.

TYNNY is thus based on new partnerships with specialist industrials of the recycling of foam to purpose to all of our clients a real solution in the waste management. We hense purpose the collect of our products to replace and the dispatch forward a valorisation and recycling center.

HOW GO FURTHER ON THE APPROACH OF RECYCLING?

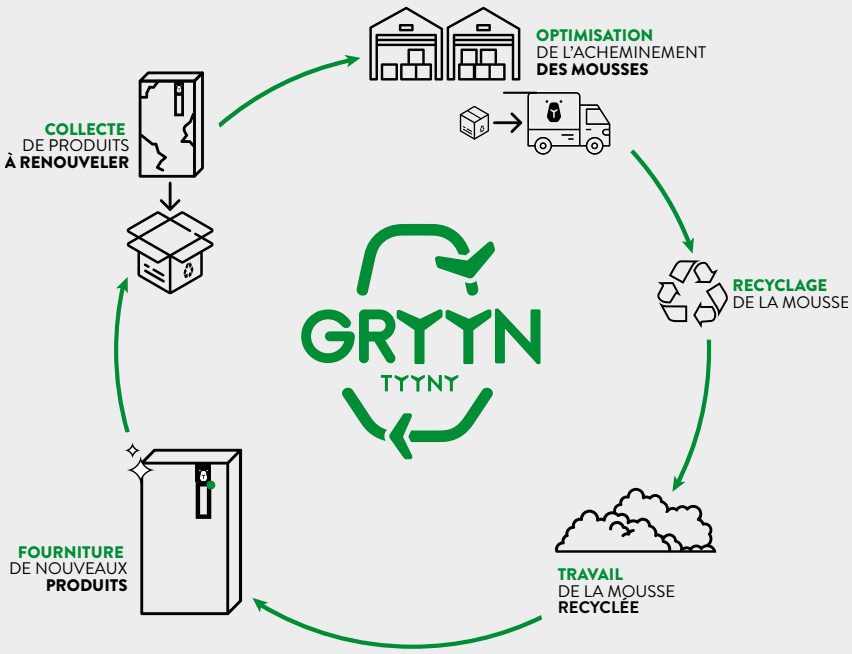

Our investment in favor of this eco responsible approach is before everything derived of our team's mind spirit. Stakeholders of the economical and societal exchanges of our time and their evolution, the brand TYNNY is firmly rooted in modernity and aware of stakes in our century, whether environmental, ethical or human.

The thinking was to integrate this same recycled foam in our new products and this, according to the control and certification office's requirement, where all our products are sent for testing to validate the conformity to different standards which framed sport and entertainment spaces that we develop.

Today, build a recycling foam represent an ecological footprint 20 times less than with a new foam.
